

Promotion Regulations for the Monolingual and Bilingual Progymnasium (1st and 2nd Classes)

(effective from 2012/2013 school year)

1 Validity

The following regulations are valid for all students admitted to the monolingual or bilingual Progymnasium of Freies Gymnasium Zürich.

2 Reports and Mid-term Reports

- 2.1 Students and contract partners (parents) receive information regarding the students' level of performance in school by means of reports and mid-term reports. These are signed by the Class Teacher and are countersigned by the contract partner. One of the two copies issued is signed and returned to the school.
- 2.2 Reports are issued at the end of the semester. They take into account the students' level of performance during the previous academic half year.
- 2.3 Mid-term reports provide information regarding the current level of performance, participation during lessons, level of interest and motivation, fulfilment of required tasks and social behaviour. They are issued at the end of the 1st and 3rd quarters, and do not, as a rule, have consequences regarding promotion.
- 2.4 At the end of the 3rd quarter of the 2nd class (grade 8), a transfer report is issued instead of a mid-term report. It reports on the student's performance during the 2nd and 3rd quarters. This transfer report is decisive for admission to the upper school of the Gymnasium (see "Regulations for Transfer from the 2nd Class of the Monolingual and Bilingual Progymnasium to the Upper School of the Gymnasium").

3 Marking System

- 3.1 In the reports, the school performance is expressed in whole or half marks from 1 to 6, whereas in the mid-term reports, marks are expressed to one decimal place. The highest mark is 6. Marks under 4 indicate performance that is below the required standard.
- 3.2 In the subject, German – as well as in English in the bilingual programme – a separate mark is given for written and oral performance. In the other modern languages, there is one mark which also takes oral performance into account. The subject regulations provide information regarding the weighting of the oral performance.
- 3.3 In addition to written work, the oral performance is also taken into account in the other school subjects.
- 3.4 The specialist subject teachers inform the class at the beginning of the promotion period regarding the criteria for performance evaluation in the individual subjects.
- 3.5 In optional subjects, the comment "attended" may be entered in the report instead of a mark.
